ABOUT US-

Since our incorporation in the 1983, we Thopte Biotech Pvt. Ltd., are well-known in the industry as one of the illustrious manufacturers and suppliers of a commendable range of Fruit Plants, Ornamental Plant, Forest Species, and Medicinal Spices Plants. The offered plants are known for their features like free from contaminates, longer shelf life, high survival rate, pest-free nature, eco-friendly and high yielding capacity. Owing to the above mentioned features, the offered plants are widely demanded across the market.

Supported by a team of dexterous professionals, which is well-versed in this domain, the offered plants are grown in efficient manner. For the same, we have constructed a spacious nursery, where environment is controlled. Also, the seeds and fertilizers used in this process are obtained from accredited vendors of the industry. Additionally, we have knitted a vast distribution network, which enables us to dispatch the offered range in stipulated time-frame.

We are supported by our mentor and technical director, Sampatrao Thopte, who is well-versed in this domain. His experience and expertise have gained us formidable position in the industry.

OUR MISSION-

Our mission is "Save Nature Save Future".

DIRECTOR MESSAGE-

Mr. Sampatro Thopte is a Technical director of the company and retired Agriculture officer. The fascination of plants diverted me to the field of Plant Biotechnology. The company was set up in 1983 with the mission "Save Nature, Save Future". The basic motto of the company was to serve mankind and nature simultaneously. I take a proud privilege to declare that 80 % of our team is run by qualified women. They are the real backbone of Thopte Biotech. Thopte Biotech is not just an organization but a family to me and hope that it achieves new dimensions in upcoming year.

We Thopte Biotech Pvt. Ltd. certified company in the field of Bio-technology, Manufacturing of Tissue Culture Plants. The company is managed by expert's professionals with outstanding knowledge in the Biotechnology. Company is duly recognized by the Department of Biotechnology (DBT).
